

Adding Your TopLine Card to Your Digital Wallet

Pay Adding Your Card to Google Pay

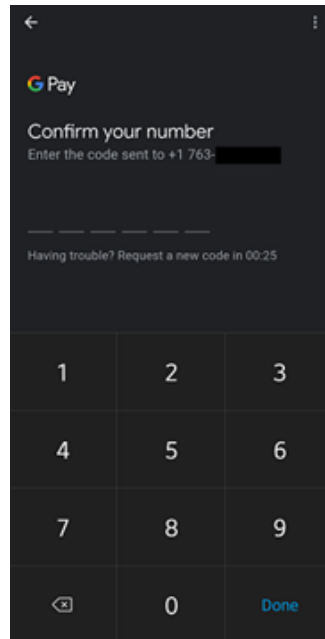

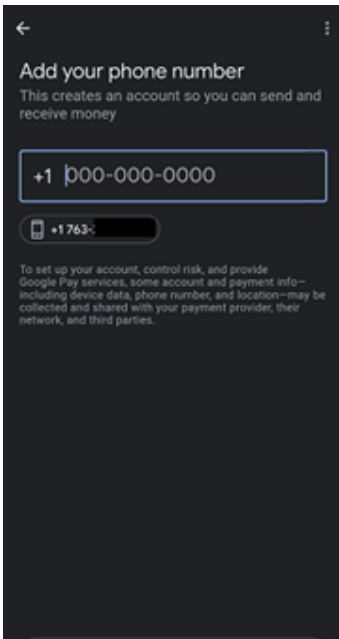

1. From the Play Store, **download** the Google Pay app.

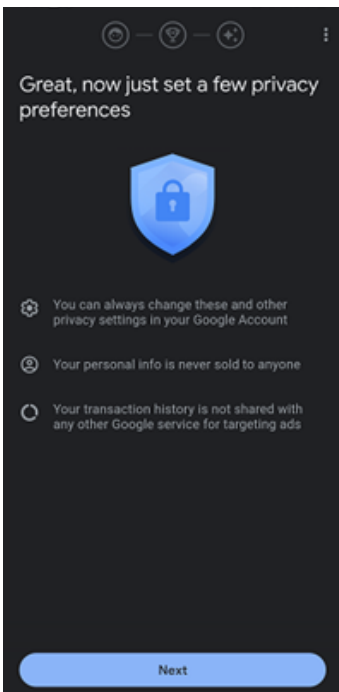

2. Select your **Google Account**. If you have more than one Google Account, select the one that you will use from the drop-down list.

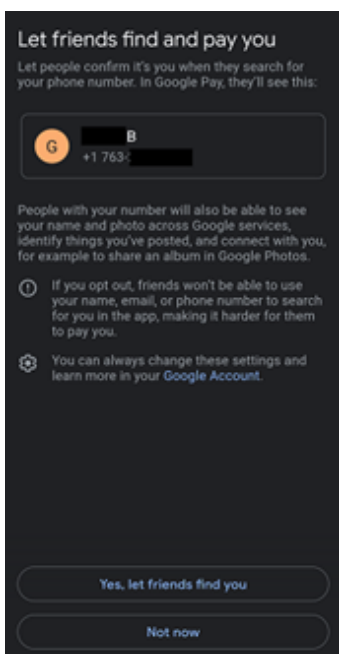

3. Review the Google Pay Terms of Service/Google Payments Privacy Notice and select **Continue**.

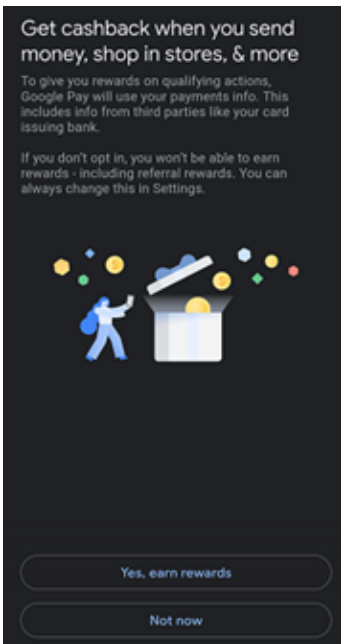

4. Enter and verify your phone number.

5. Set your privacy settings (these are optional and can be changed at any time in Settings).

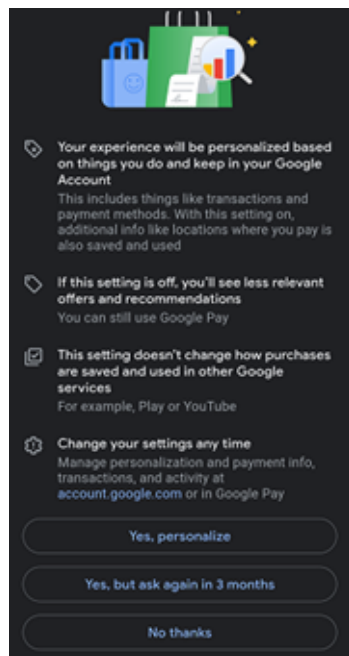

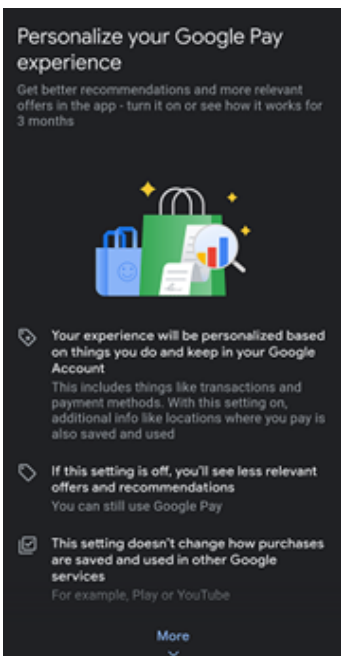

6. Let friends find and pay you (Optional) – you can select to set this up or choose Not Now.

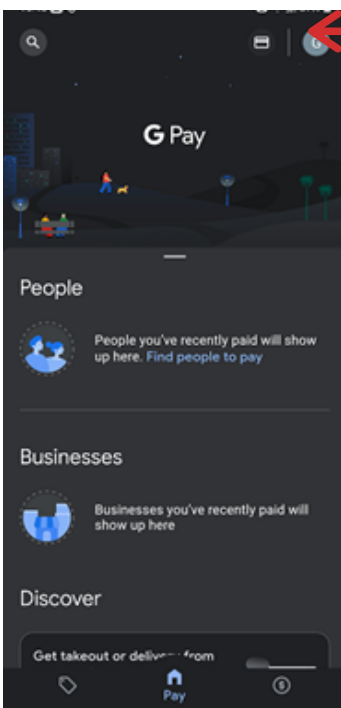

7. Get cashback when you send money, shop in stores, & more

Optional: You can choose to set this up or choose Not Now.

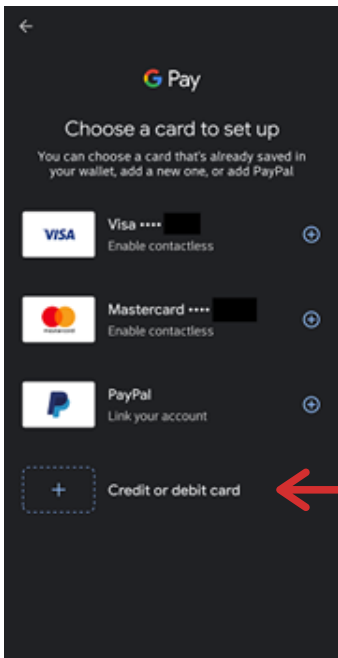

This a separate program offered via Google Pay and is not related to our CURewards/CashBack program

8. Personalize your Google Pay experience Optional: You can personalize your experience or choose **No Thanks.**

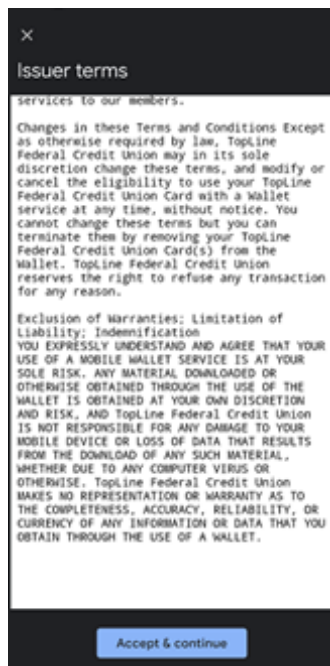

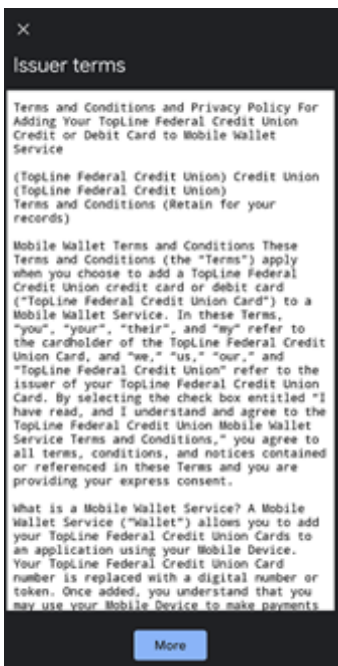

9. Tap the **card icon** in the upper right to add a new Debit or Credit card.

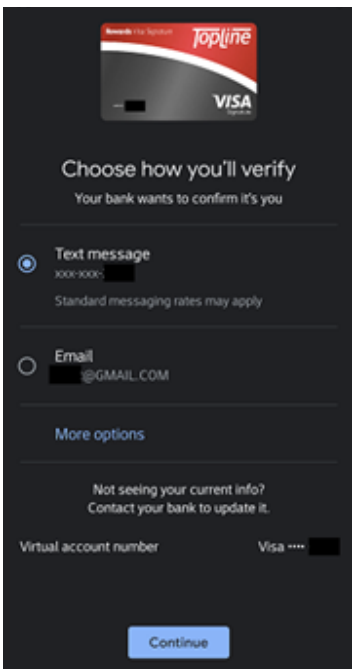

10. To add a new Credit or Debit card, click the + icon shown at the bottom.

Note: Any accounts that have already been saved in your wallet will appear and can be set up for contactless payment as well.

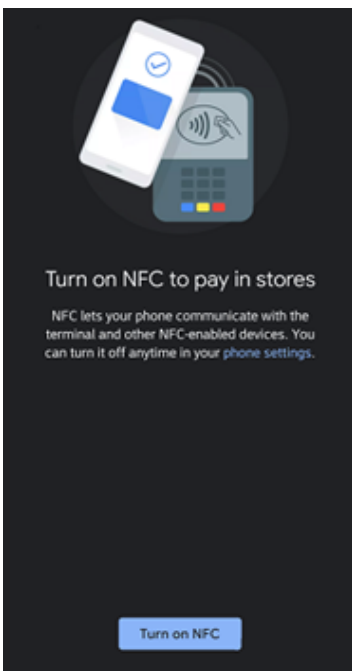

11. You will be prompted to take a picture of your card or manually enter the card number, expiration date, and CVC code.

12. Review the Issuer Terms and then click the **Accept & Continue** button.

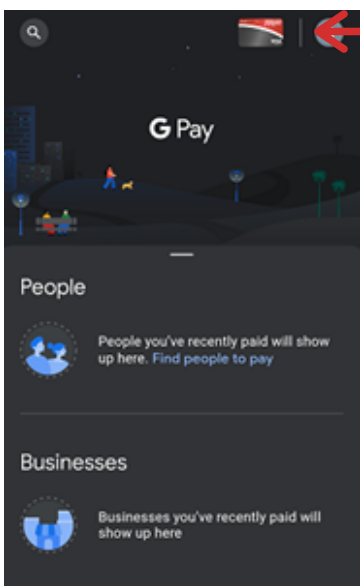

13. Select how to receive the confirmation code and click **Continue**.

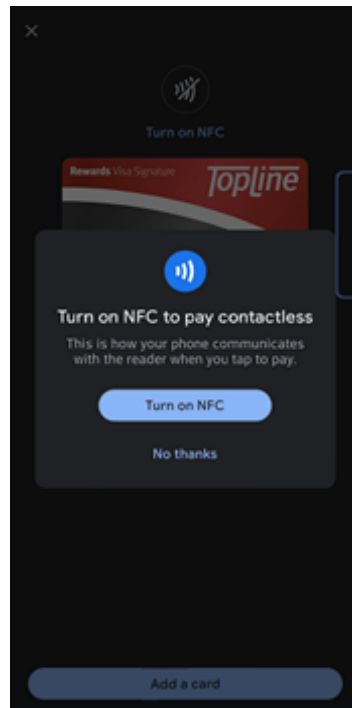

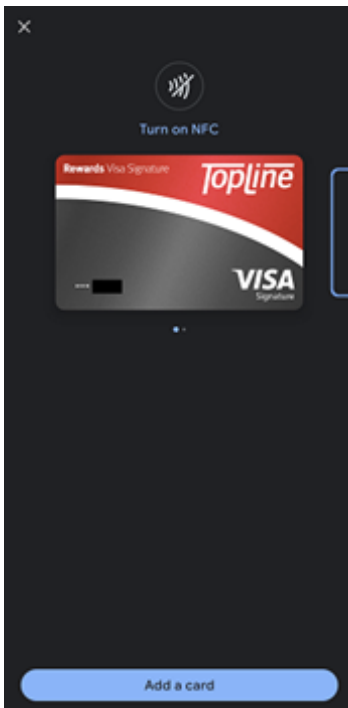

13. After the card is confirmed, you will be asked if they want to turn on NFC (Near Field Communication)

This will need to be turned on at the time the digital wallet is used but it does not need to remain on at all times.

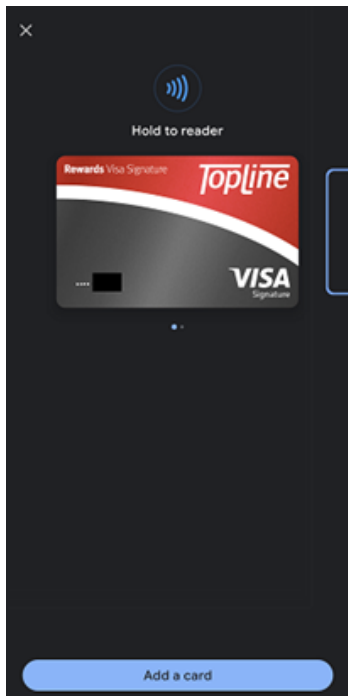

14. The NFC can easily be turned on at any time when you are ready to use your card for contactless payment by:

- a. Opening the Google Pay app and selecting the card icon.

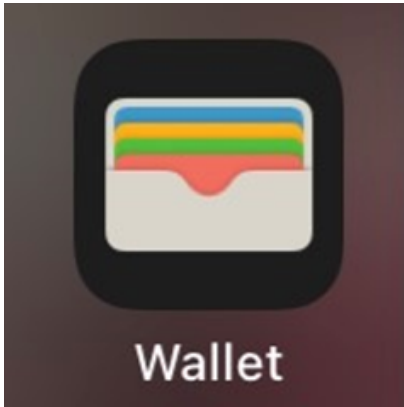

b. Find the card you want to pay with (can swipe if there are multiple cards) and click **Turn on NFC**.

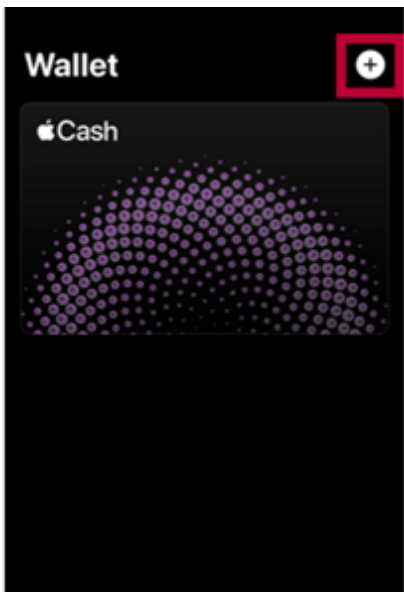

c. The card will then show **"Hold to Reader"** and can be used for contactless payment.

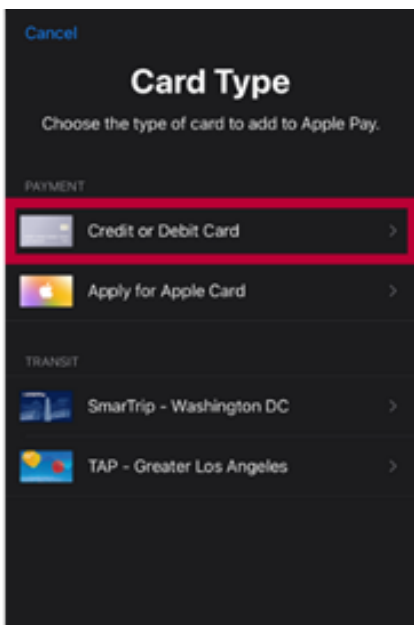

Adding Your Card to Apple Pay

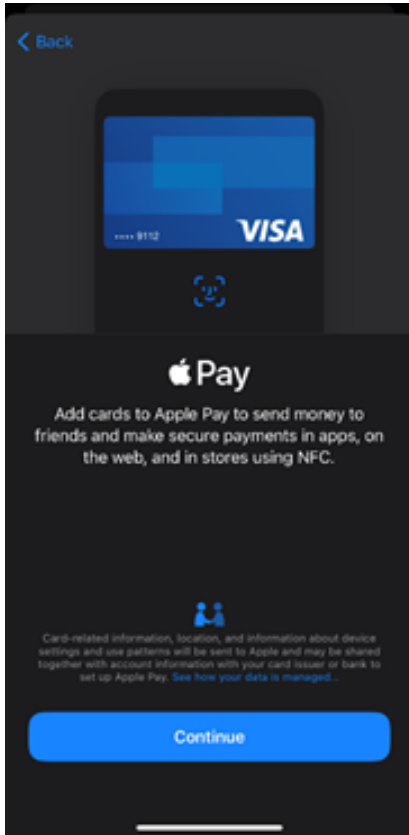

1. Open the **“Wallet”** app on your iPhone. This should come pre-installed.

2. Once the app is open, click the + plus button in the upper right corner to add a card.

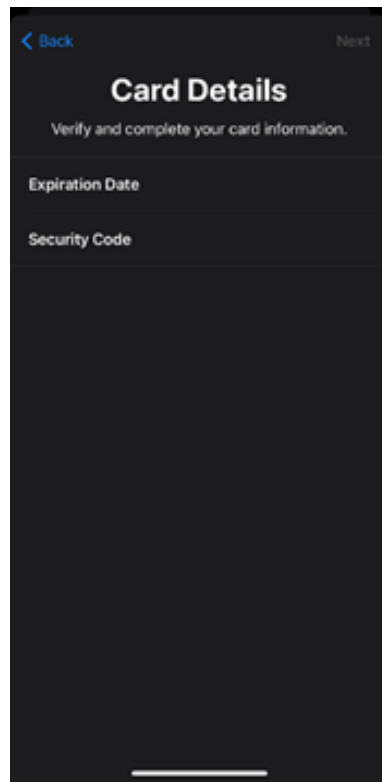

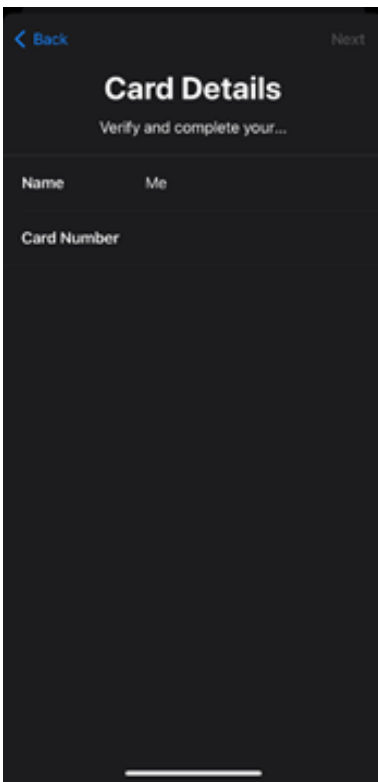

3. Then, select adding a new **credit or debit card**.

4. Click **Continue** on the next screen.

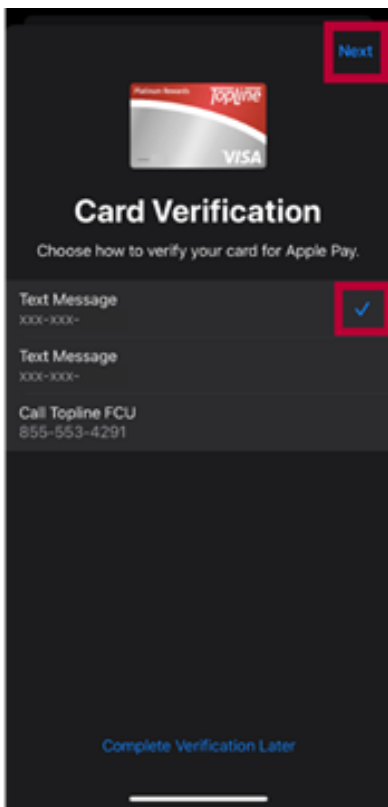

5. To add your card, scan it or enter the information manually.

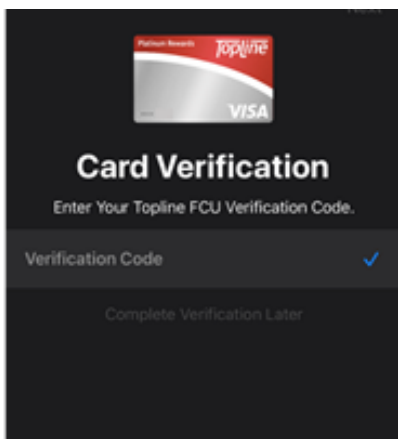

6. It will then ask you to verify your card information.

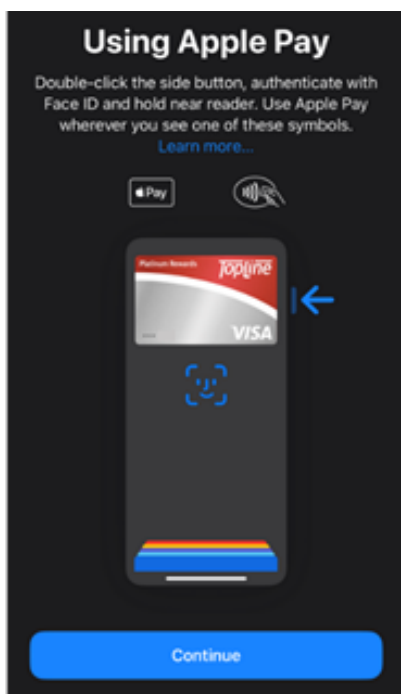

7. Then it will ask you to accept the terms and conditions. Click **Agree** in the lower right corner.

8. Next, it will ask you to choose a method to verify your card. Click **next** after you've selected your verification method.

9. Enter the code sent to you to verify your card.

10. The next screen gives instructions on using Apple Pay. Click **Continue** to move on.

11. Your card is now in your wallet. A notification from TopLine will pop up to let you know it is verified and ready to use. Click **Done** to go back to your main wallet screen.

12. This is your main wallet screen with your added TopLine card.
